<b>PROJECT INFORMATION</b>
Project Name: Fire Station 16 South Wing Audio and Video Installation
<p>Project Description:</p> <p>Installation of one remotely controlled, ceiling-mounted camera, one on-the-fly editor/switcher, a projector, an audio system that includes 8 inputs/channels (along with necessary amplifiers and speakers), and a rack to hold the equipment.</p>
Amount Requested: \$19,724.47
<p>Other funding sources (grants, donations, other local governments, etc....):</p> <p>No other funding sources at this time.</p>
<p>List plans for securing other funding and stability of that funding:</p> <p>None</p>

**Explain Need for LPDI Funding:**

Thanks to LPDI grant funds, the Town of Nags Head is now able to use the multi purpose room on the Town's municipal campus to develop additional programming for the Government Access Channel. However, there are many meetings and workshops that take place in the south wing of our Fire Station 16 (due to audience size and lack of multi purpose room availability) that we would like to videotape and air on the Government Access Channel but are unable to do so because of the lack of equipment in the room. We would also like to be able to edit these presentations on the fly to save time and also because at this time we do not have the equipment or software to post edit videos on site.

**Possible Additional Programming for the Government Access and Education Channels**

- Wellness Presentations
- Post-Disaster FEMA/NC Emergency Management Meetings (we could livesream these meetings so other emergency management officials in the county do not have to leave their busy workplaces to attend)
- News Conferences
- Police Trainings
- Fire Trainings
- Police Safety Messages
- Fire Safety Messages
- Ocean Rescue Safety Messages
- Beach Nourishment Meetings

We expect that many of the videos we will produce using this equipment will have a universal appeal to all of Dare County, and not necessarily just Nags Head.

Does this promote additional programming on the Government Channel or Education Channel? Please see above.

Describe specific purpose for which LPDI funds will be used (proposed budget & supporting documentation may be attached):
